AHRESTY WILMINGTON CORPORATION strives to build partnerships with and purchase goods and services from a certified diverse enterprise base. This outsourcing initiative is complimented by our own diverse team members of over 600 members located at our Wilmington, OH 45177 location.

Although most of our raw materials and components parts are directed sources from our OEM automotive customers; we do have opportunities in the service areas including but not limited to staffing, MRO, and janitorial.

Ahresty will:

- **Consider and Select** suppliers/commodity categories where MBE/WBE opportunities may exist that fall outside of our customer directed-buy purchases.
- **Continue to Identify** real opportunities with potential or existing suppliers.
- **Enhance and Develop** relationships with external minority and diversity groups as well as councils/associations regarding their connection with minority entrepreneurs.
